RESPONSE TO OFFICE ACTION

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed November 4, 2002, kindly amend
the application as follows:

IN THE CLAIMS

20. (Twice Amended) In a spa or swimming pool installation, including
a pool water holding structure, a method for releasing water into the water
holding structure, comprising:

providing an electrically actuated valve connected to a water supply line,
the valve responsive to electrical valve control signals to open and close,
wherein the valve in an open state releases water from the water supply line into
the water holding structure, and in a closed state prevents water from flowing
from the water supply line into the water holding structure;

providing an electronic control system responsive to a user commands
through a control panel to generate the valve control signals;

entering a user command through the control panel to actuate the valve;

opening the valve in response to the user command;

automatically closing the valve after a predetermined time has elapsed

after opening the valve.
